Importance: High

Mark,

Attached is a copy of a compliance letter I had to issue today for Soldotna Y Chevron concerning the overdue site assessment report for the piping closure that was completed on 10/7/14. The site assessment report was due to our office on 12/7/14 and is about 50 days overdue at this point. We will need the report in our office no later than 2/13/14 in order to avoid possible formal Notice of Violation enforcement.

Let me know if you have any questions
